

# CARPARK

As explained to all enrolled students in your one-on-one enrollment appointment, we have a specific carpark system here at DSA that we expect all students and parents to follow. If you are parking, you are only to park in carparks numbers 31, 29, 24 and 15. If they are all full, you must park on the street and walk your child safely into the building. Alternatively, we encourage all families to use our convenient kiss and go system. Cars are to enter through the first driveway stopping at the yellow bollards (where our carpark attendant stands) and collect or drop off your child from the left side of your vehicle. Then proceed to exit the carpark out of the bottom driveway. We ask that you are all patient in the queue as our main priority is your child's safety after all. Thank you for your co-operation.

**IMPORTANT** No students will be allowed to wait at the front of the complex for parents, please don't ask your children to wait there.
